OPEN IRREGULAR AND END BADLY

Stocks Suffer Slump and Carry Prices Down to New Low Levels.

BUYING ORDERS ARE THIN

Inactive Stocks Decline From One to Two Points, and No Demand for Investments.

BY BROADAN WALL.

New York, October 17.—Stocks ended badly to-day. After an irregular opening a slump in the market carried prices to new levels. A recovery of from 1 to 2 points followed. Trading. however, was perfunctory and largely professional.

The best prices of the day were made about 2 o'clock. Hot on this firmness, violent liquidation broke out in Rock Island 3s, which carried the bonds down 2 points. This was followed by a slump in shares. The preferred sold at 17½ a new low record, the common ended at 11½. For some time the action of these securities has foreshadowed a readjustment of the company's organization. Rumors were current that some announcement might be expected within the next forty-eight hours.

Buying Orders Are Thin.

Brokers reports that buying orders are noticeably thin. Technically, a rally should have occurred. As a matter of fact, many of the leading stocks were unchanged at the close, Canadian Pacific, St. Paul. Hillnois Central, Lehigh Valley, Third Avenue and Union Pacific ended without the gain or loss of a fraction from the previous final cuestations.

Steel railied fractionally on expectation that large orders for rails will be placed by the leading railroads during the current month.

shoot only 124 lt points over the close of yesterday. Hester put mill takings for the week at 25,000 bales against 314,000 this week two last year, and 225,000 bales this week two last year. All years ago. This was a much better showing than even the bulls expected, but did not put the market up because of the offerings from satisfied longs. In the after the market fell off until the most active months were 4 points under the final quotations of yesterday. The close was steady at a net of 12 3 points.

New York, October II.—Dun's Review tomorrow will say:
Distribution of merchandise in some sections reflects the stimulus of seasonable
weather, while industrial operations, apart
from iron and steel, are expanding. Decided
improvement appears in some mercantile
lines, uniformly encouraging advices being
received from the leading trade centres,
which with scarcely an exception, reports a
larger volume of business than a year ago.
Collections are fairly prompt and an optimistic sentiment generally prevails. There
is a steady demand for dry goods for quick
delivery. Considerable activity is noted in
wood. The tendency of leather values is still
upward, Least satisfactory conditions obtain in iron and steel, where the trend toward lower quotations is more pronounced.
Failures this week numbered 323 in the
United States, such person may make
affidavit to such fact, and thereupon
no return will be required. However,
this does not mean that all people will
thus have to make affidavit; only those
whom the collector or his deputy upon
reasonable grounds might believe were
subject to tax would make affidavit."

INCOME TAX LAW

Tennessee Representative, Author of Measure, Tells How It Will Be Worked.

AFTER INFORMATION

Taxable Persons Will Be Furnished With Blanks: if Not, Must Apply for Them.

[Special to The Times-Dispatch.] Washington, October 17 .- The income tax law, as just passed by Congress, is the thing that is attracting much attention all over the country at the present time. Those who will be affected by its provisions are reaching out for information as to just how and when they must meet Uncle Sam's reaufrements.

To-day Congressman Hull, of Tennessee, the author of the new provision, was asked for a statement of the measure, and he said:

"Under the new income tax law every citizen whose net income exceeds \$3, 000 will be required to pay a normal tax of 1 per cent upon such excess. However, for the year 1913, the tax will be met by the net income accruing from

Applies Since March 1.

"The taxpayer whose annual net income exceeds \$3,000 for the year 1913, will, therefore, only be taxed on that portion of the same accruing from March 1 to December 31 in excess of \$2,500 for an individual and \$3,333,33

If any taxpayer should fall to receive such blank, he will be required, under penalty, to apply to a collector or a deputy for a blank return. Blanks will probably be on deposit with most postmasters for the convenience of the taxpayer.

"The Treasury regulations soon to be prepared will make clear to every taxpayer the requirements of the law and its application to income derived from the various kinds of business. Any person who keeps familiar with his businesss affairs during the year to the extent that at its end he knows with reasonable accuracy the amount with reasonable accuracy the amount of his aggregate annual profits, the matter of executing his tax return would be both simple and convenient.

Exemption of \$3,000 Allowed.

"The statutory exemption of \$3,000 is allowed for personal living or family expenses; however, this and other gross income, for which special deductions are allowed by law, must be embessed in the return of gross income. bracek in the return of gross income, and the commissioner of internal revenue will make these deductions when he assesses and computes the tax. Each taxpayer will be notified of the amount of tax due by June 1, 1914, and will be required to make payment by June 20, 1914.

the hope of securing freer efferings of high grades.

The enesus figures, showing active domestic mill consumption for the month of September and comparatively small stocks in hands of manufacturers, were among the factors on the advance in connection with the larger exports and comparatively heavy spinners takings. The advance in the Hank of England discount rate, however, attracted some adverse comment, while trade advices from abroad have remained of rather a bearish average, and those who oppose advalces are influenced to some extent by prospects for larger foreign crop this season. According to latest estimates the Egyptian crop will be in the neighborhood of 1,600,000 cantars, while the Indian yield is expected to furnish 270,000 bales more cotton for export than last year.

In the enesus figures, showing active domestic mills on exceed to fix in some exception, which relates to take independent on coupon bonds and other like indebtedness, but it does not embrace interest paid by banks to depositors or interest upon notes or other like obligations unsecured by morting or deel of trust. The 1 per cent tax upon such interest accruing to all individual bondholders will be withheld trax.
